

L1K

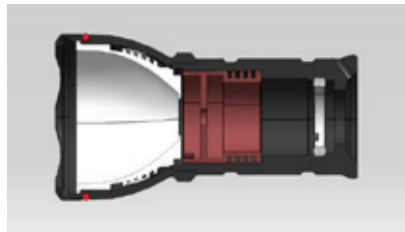

Superior Bike Lighting

Light up your ride.

The 1000 Lumens eZee L1K aspherical lens construction directs light semi-spherically downwards, making broad beams and reducing glare unto incoming traffic. High quality reflectors in the construction directs over 90% of the light forward. The high vision, high visibility greatly improves the safety and performance of your night ride.

Specifications

LED	CREE Xml U2
LED Power	10W
Max. Luminous Flux	1000 Lumen
Led Life	Up to 30,000 Hrs
Colour Temp.	5,600K - 6,800K
Lens Type	Aspheric Lens
Illumination Distance	Up to 30M
Input Voltage	D.C. 6V - 75V
Operational Current	2300mA
Weight	104g
Dimension	Length (83mm), Head Dia. (43mm)
Water Resistance	IP65
Body Materials	Al6061 & Plastics (PC)
