Bags / Baskets

Shopping, trekking, adventure or commercial applications. Get the maximum utility for your Expedir.

Pillion

Special care for your children that allow them to fully enjoy the ride while keeping them safe and comfortable.

Established 2001.

We're dedicated to making the world's best electric bikes.

We design and manufacture complete electric bikes for a variety of needs. Whether its for simple commutes or extreme journeys, we build beautiful electric bikes that withstand the toughest conditions

Our unique electric drive system is unlike any other in the market in terms of performance, usability and efficiency. No other drive system can climb a mountain or go the distance like ours can.

Together with our international partners, we are committed to bringing you the best cycling experiences of your life.

Expedir :
Utility Electric Bike

*bring your
world with
you!*

Bring your world with you.

Introducing the electric bike that could. The eZee Expedir's extended rear carrier and base loaders bring a utility to cycling that conventional bicycles could never do.

Leave your car at home when headed to the supermarket. Bring your children along with you for a fun ride. Haul heavy and bulky loads speedily and handily with the lightest of pedaling and with the lowest of emissions while reducing your commuting costs.

As with all eZee electric bikes. The Expedir features our proprietary electric drive system that delivers unrivalled power and performance. Together with a selection of high quality components, be assured that no bike trip is ever too hard.

Rediscover cycling today with the Expedir and bring your world with you!

Feature Focus:

FRAME

Standard

Expedir's gentle sloping frame makes it easy to mount / dismount, especially with rear cargo.

Low Step Thru

Low step thru design for even easier access. Especially suited for ladies.

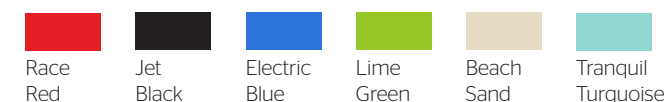

3140 Chrome Moly Steel

3140 Chrome Moly Steel frame gives the Expedir its robustness, high rigidity and superior tensile strength. Carry up to 200 kgs (440lbs) of load, incl. rider.

Frame Colour Options

COMPONENTS

The Expedir comes equipped with top drawer components, such as Al. Alloy Handlebars, Al. Chainwheel and crank, Velo® Plush Saddle, Schwalbe® Marathon Plus, Cat-Eye® Velo 8 Cycle Computer and full polycarbonate fenders. Make every journey with confidence, rain or shine!

Designed as a solidly reliable utility bike electric bike for every day use, the Expedir gear features Shimano 8 Speed derailleur gears. Upgrade to NuVinci's N360™ variable transmission gears for the smoothest gear shifting.

ELECTRIC DRIVE SYSTEM

Motor

Brushless PMDC 250W (EU) / 500W (US) planetary-gear hub motor for exceptional torque and acceleration. Aluminium Alloy housing with 6 bolt ISO disk brake mount. Available in polish or black anodized finish.

Battery

Light weight Li+ 36V 15Ah battery provides up to 70kms on a single charge. Boost your range even further with our optional 36V 20Ah battery or even more by connecting additional batteries. 4 Amps Smart Charger included.

Display & Interface

6 LED Battery and Power level display, configurable settings for ebike, EPAC or bi-modal modes. Electric cut-off brakes and throttle options available.

Controller

Meet the brains behind the brawn. Overload protection 20 amps. IRFB 4110 Mosfet. Operational voltage 36 / 48V.
